## ABOUT ME

Enthusiastic Shopify Developer and Computer Science student with a strong background in front-end design and full-stack web development. Skilled in building responsive, user-friendly eCommerce websites using HTML, CSS, JavaScript, PHP, MySQL, and Liquid. Experienced in developing custom Shopify themes, integrating APIs, and optimizing site performance. Dedicated to delivering high-quality, conversion-focused online stores with a seamless shopping experience.

## PROJECTS

### GameNexus – Gaming E-Commerce Platform

- Designed and developed a full-stack gaming e-commerce platform featuring a responsive, intuitive UI with HTML, CSS, and JavaScript.
- Engineered robust backend services using PHP and optimized data management with MySQL to handle user authentication, dynamic product catalogs, and secure payment processing.
- Implemented seamless integration between frontend and backend for an efficient and scalable shopping experience.
- Tech stack: PHP, MySQL, REST APIs, Responsive Web Design, Secure Authentication.
